Happy Wednesday, angels! I'll soon be on vacations and I cannot wait. I really need two weeks to get back into the swing of things!

I thought Wednesday could be our new reading update date! I will always keep updating you about my past reading weeks on Monday as I've been doing ever since I started this account, but I thought we could talk more about it on Wednesdays, especially about our current reads and stuff.

bibliophile_musings QOTD: what's the weirdest thing you've done for a bookstagram photo or strangest prop you've used?

AOTD: laying on the floor while my husband piled books on my feet is up there 😊 •

My hubs rolls his eyes at me DAILY when I'm brainstorming bookish ideas, doing unboxings, or making a mess of our house while having a photo shoot. He secretly is very proud of my page though and my heart soars when I hear him brag about it to our friends and family. Bringin in those followers baby! □

james_trevino 1 to 3 - which one is your favorite? 😊

After many requests I finally decided to show my 6 pack (swipe to see). 😊

😂 Stole this idea from Liz and was in doubt what covers to use. And then I saw this article about headless torsos on the cover of romance novels and it hit me. 😂

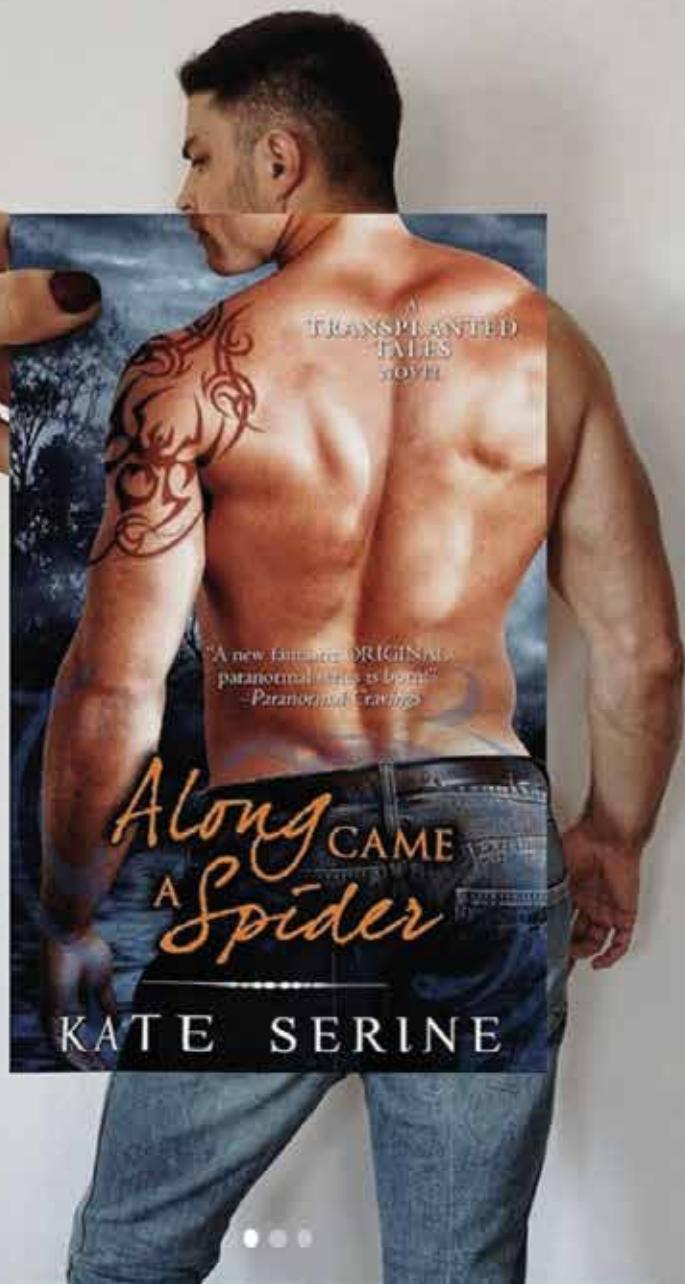

P.S.- In no way, shape or form I mean any disrespect towards these books and their authors or the genre itself. Reading is reading and it is always a good thing. 😊

iwouldratherbereading Ova knjiga je morala da se nadje na mom feed-u. Svi koji je niste pročitali, preporučujem vam da je odmah uzmete u ruke i otpotujete u Barselonu da rešavate misteriju zvanu Hulijan Karaš sa dečakom Danijelom.

Jel dovoljno objasniti koliko me očarala kada je jedna od najboljih knjiga koje sam pročitala u životu?👉

marinamoscatoart 📚 Oltre tutto, ci sono i libri 🌟 📖 📜 Condividere la propria passione verso qualcosa fa parte del ✨ "creare Arte" ed Elizabeth Sagan condivide il suo amore per i libri ❤️ creando con questi, scenari creativi. Tutto è iniziato con la condivisione delle sue letture preferite, quindi con gli scatti interattivi con una libreria. Man mano che diventava sempre più coinvolta nell'idea, le foto diventavano costantemente più complesse e creative. Oggi crea opere d'arte intricate e stimolanti dalla sua vasta collezione di libri coloratissimi 🌈
